

women microfinance and the pdf

reached over 79 million of the poorest women in the world¹. As such, microfinance has the potential to make a significant contribution to gender equality and promote sustainable livelihoods and better working conditions for women. Women's empowerment through microfinance is key for promoting the International Labour Organization's

Small change, Big changes: Women and Microfinance

We provide empirical evidence on focusing on women in microfinance and its consequences for microfinance institutions (MFIs). Based on a global dataset, the results indicate that a focus on women is associated with group-lending methods, international orientation, smaller loans, and non-commercial legal status.
